

1. Intellectual Preparation

Lavinia Group provides support and systems to teachers and leaders to ensure intellectual preparation focuses on the most critical aspects of instructional planning. Leveraging student work and data, our intellectual preparation method support teachers to effectively and precisely analyze texts and understand content.

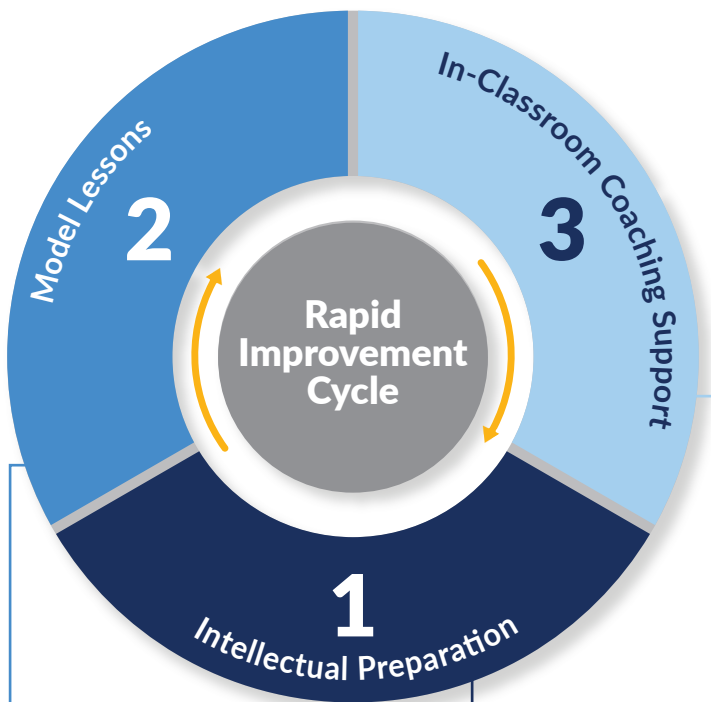

2. Model Lessons

We model lessons with students or use videos with teacher groups to observe instructional practices in action. Immediately following the lesson, leaders and teachers debrief and analyze student work to plan and practice instructional methods they can apply in upcoming lessons.

3. In-classroom Coaching Support

Working side-by-side with educators, Lavinia Group provides in-classroom coaching support for teachers to apply what they've learned from intellectual preparation and model lessons.
